

The Kenmore product line is made for Sears by the leading appliance manufacturers and branded with the Kenmore name. Sears does not manufacture any products themselves.

You can determine the manufacturer of your particular Kenmore appliance by comparing the model number prefix (first 3 or 4 digits of the model number before a dot or space) with the table below. (Eg. **110.20622991** or **110 20622991**)

This model number will usually only appear right on the appliance's identification tag (as pictured above) and will *NOT* usually be listed in the owner's manual, bill of sale or on the energy guide label.

Any printing on the front of the appliance (eg. "Series 70", 80, 90, "Kenmore 20", "Elite", "Deluxe" or "Heavy Duty", etc.) is *not* the model number but is just a marketing name which is not usually of any help in identifying the appliance you have.
