WATER SYSTEM DIAGRAM

FEBRUARY 2001

In February of 2000, a water filter was added to our Monogram side-by-side models. The following diagram will help to better identify leak locations.

1. Brass coupling
2. Copper extension
3. Elbow connector at water valve (orange)
 - a) leaking at valve
 - b) leaking at tubing
4. Water filter
5. Elbow connector at water valve (brown)
 - a) leaking at valve
 - b) leaking at tubing
6. Elbow connector at water valve (1/4")
 - a) leaking at valve
 - b) leaking at tubing
7. Plastic tube at fill grommet
8. Fill cup, fill tube
9. Ice maker
10. Elbow connector at water valve (5/16")
 - a) leaking at valve
 - b) leaking at tubing
11. Water tank
12. 5/16" to 1/4" connector tank to door
13. Tube @ dispenser

Please message one of the following Product Quality Engineers with leak locations after repairs have been completed.

L010215 or mike.hamilton@appl.ge.com

L097360 or jim.rockwell@appl.ge.com
